Form: Students must use a separate registration form for each semester and each summer session. Dual Enrollment students use one form to register for courses even if using two vouchers in a semester. Non-Degree Seeking students use this form to register for any semester. Students seeking a degree use Banner Web, **not this form**, to register for spring and fall classes. **ALL students must use this form to register for summer semester classes.** If a deposit is required it must be paid prior to registration.

New Student or Returning: Students with an A number (student ID) do not need to complete Section II of this form as they are returning students but they must enter it as requested on the form. Students without an A number must enter a social security number where requested on the form so a student record can be created and an ID generated. Non-degree seeking students do not have an advisor and should leave that field blank.

Overrides: Overrides allow students permission to enroll in a course he or she is restricted from for any of the reasons listed below. The Registrar's office **does not** process overrides. Overrides are processed by the school/department offering the course.

- Capacity – Enroll in a course that is full
- Class Level – Course is restricted to a specific class level
- Course Link – Allows enrollment in one linked course without the other
- Major – Course is restricted to a specific major
- All Conditions – Global override for all conditions on a course
- Pre and Co Requisites – Pre or co-requisites not met
- Special Approval – Course requires approval from a dean or instructor
- Time Conflict – Course times overlap
- Duplicate Course – Some of the topic courses have the same numbers, for example, CJ 300 is a topic course that can be taken more than once, because the course content is different. An override allows the grade to appear twice on the transcript
